COLONIAL NEEDLE CATALOG

www.colonialneedle.com

About Us

In 1888, Augustus Brabant started the Brabant Needle Company in Watertown, New York. The needles were manufactured in Redditch, England, the center of most needle manufacturing in the world.

Specializing in door-to-door sales in the United States, the company was moved in the early 1900s to New York City. By 1925 the owners settled in Yonkers, New York, and changed the name to Colonial Needle Company.

In the more recent decades, under the ownership of the Collingham family, the core needle business has grown in scope to include the entire needlecraft industry. Now, located in White Plains, New York, our goal remains constant - to guarantee quality service and to make available the finest product lines to needleworkers everywhere.

Contact Us

ORDERS Colonial Needle is a supplier to wholesale distributors and retail shops. Orders are processed through preferred distributors and retail shops.

We are always available to answer your questions or to assist you. Feedback and suggestions are welcome.

Telephone: (800) 9 NEEDLE (963-3353)

New Account Set-Up

New accounts are set up with prepaid terms (payments must be made prior to shipping). After steady ordering, a credit account may be established. Standard terms are 'Net 30 Days from Shipping' given consistent, prompt payments. We reserve the right to adjust payment terms at any time. Please visit our website or contact us for a Wholesale Account Application.

Helpful Hints for Ordering

The preferred method of order intake is through email to one of our customer service representatives. We do accept orders via phone and fax as well. There is a minimum wholesale order of \$100.00. A surcharge of \$20.00 is applied to orders less than the minimum.

When placing your order, please introduce yourself with your name and the company or account number found on all invoices and statements. Please have a list ready with the Item IDs and the quantities you wish to order. It is also a good idea to confirm your shipping address at this time.

Thank you for making this effort. This will ensure your order is completed accurately and will minimize errors so your order can be processed and delivered to your expectations.

Quotations

Quotations will be held for 30 days by our warehouse. If order is not confirmed within that time frame, items will be returned to stock.

Shipping & Handling

Most orders are shipped FOB White Plains, NY within 24-48 hours of receiving the order. Unless you stipulate a preferred carrier, we will select the swiftest and most cost-effective shipping method for each order. If you have a Freight Collect Account with UPS or FedEx that you would like us to utilize, please provide this information to us when placing your order.

Back Orders

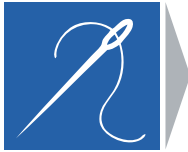

We will back order any items that are not in stock at the time the order is placed unless we are requested not to do so. As soon as items are back in stock, they can be shipped immediately unless otherwise instructed. A backorder list can be provided to you at any time by request.

Returns & Credits

Any order/shipping discrepancies must be brought to our attention within 7 days of the customer receiving the product.

Returns are addressed on a case-by-case basis. Please speak with a customer service representative to initiate a return. Returns must be made within 90 days and all items must be in saleable condition and a 10% restocking fee may be charged.

Sharps

These are general purpose sewing needles used by dressmakers around the world. Size 16, 17 and 18 are known as Carpet Sharps and, as their name suggests, are most commonly used in the design and manufacture of carpets and rugs.

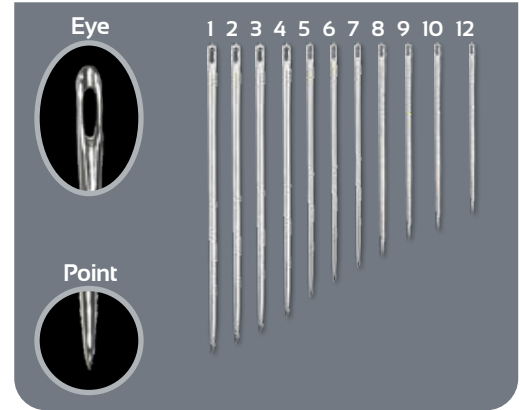

Embroidery/Crewel

Embroidery needles have a longer eye than a standard Sharps needle, making them more suitable for threading stranded cotton. Apart from this, their length, diameter and point profile is akin to that of a Sharps needle.

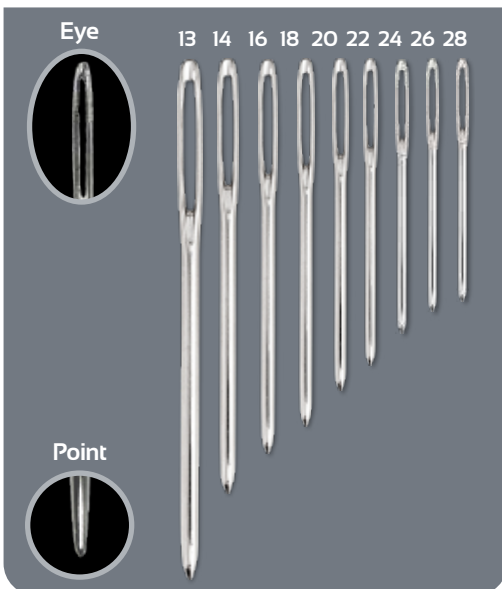

Quilting/Betweens

Specifically designed for quilters, the short length of these needles allows you to stitch far quicker than when using an ordinary sewing needle.

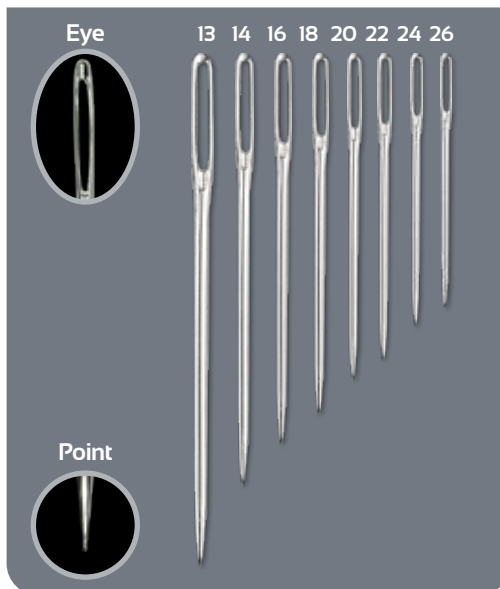

Tapestry/Cross Stitch

These large eye needles allow the user to thread tapestry wool or six-stranded cotton easily. The blunt tapestry point enables the needle to pass through canvas without tearing or splitting its fibres.

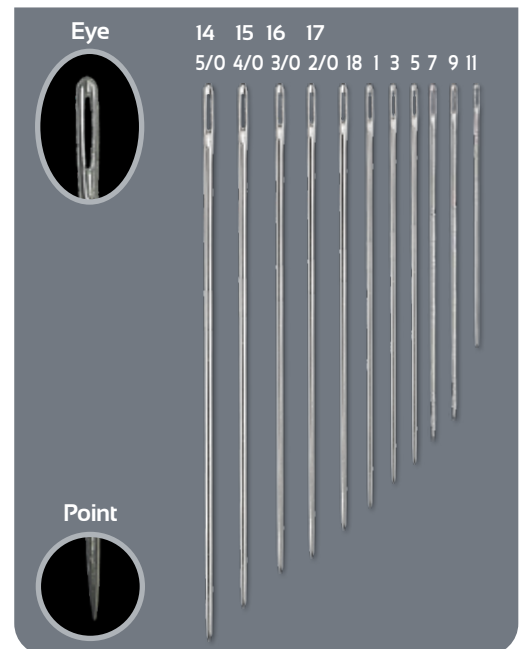

Chenille

Chenille needles are identical to Tapestry/Cross Stitch needles in length and diameter but the Chenille point is sharp, enabling the needle to pass through the coarsest of fabrics.

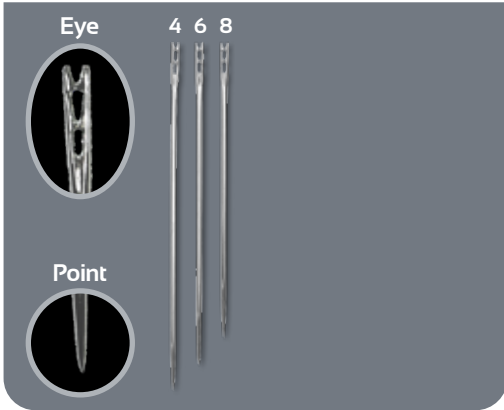

Darners

Long and sharp with elongated eyes, as their name suggests, these needles are used for darning or mending work. Sizes 14 to 18 are commonly known as Yarn or Wool Darners.

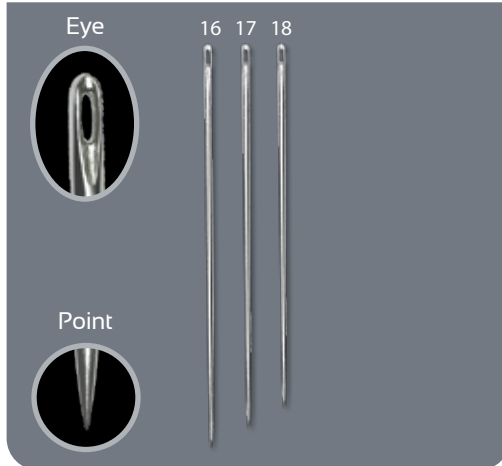

Easy Threading/Calyx Eye

Perfect for those who find it difficult to thread regular needles, these are standard sewing needles with a cut made in the top of the eye to allow thread to pass through it from above, as illustrated.

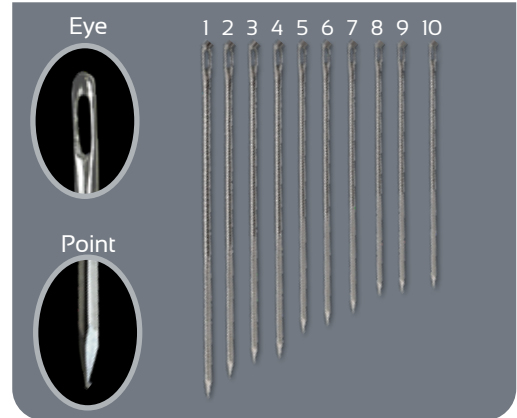

Carpet Sharps

Size 16, 17 and 18 are known as Carpet Sharps and, as their name suggests, are most commonly used in the design and manufacture of carpets and rugs.

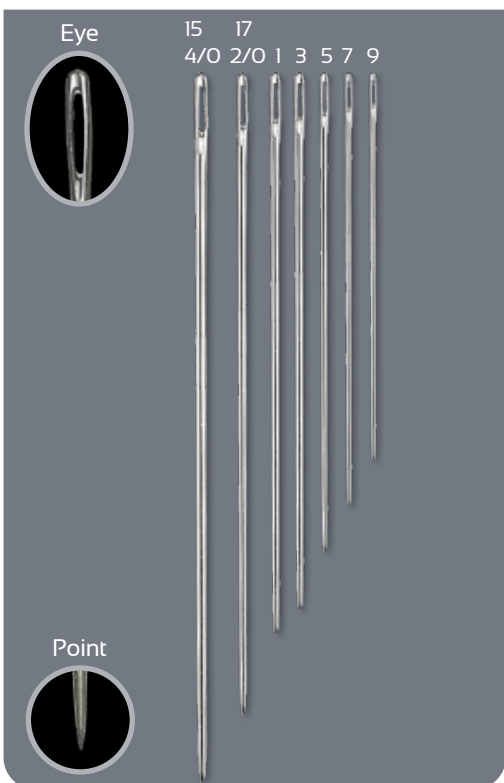

Leather/Glovers'

These needles have unusual triangulated (cutting) points to enable them to pass through tough materials without causing unnecessary abrasion. While, as their name suggests, they were originally intended for use when leather working, they are also ideal when working with other media such as suede and soft plastics.

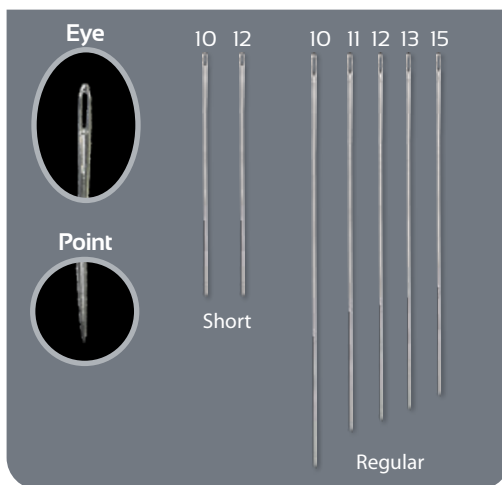

Long Darners

Another form of darning needle, the extra length and larger eyes of the Long Darners make them even more suitable for mending with wool or other thick and coarse threads.

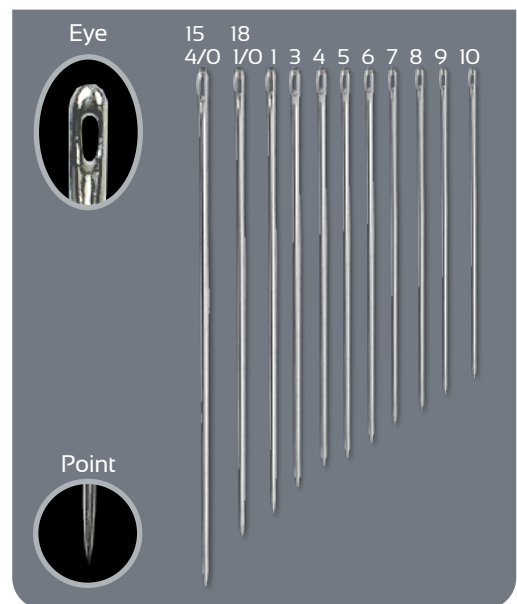

Beading

Beading needles are made from the finest steel wire, enabling their use with beads, sequins and pearls. Each size of Beading needle is made from a different diameter of wire which is particularly unusual.

Milliners'/Straws

Although traditionally used in the Millinery trade, these needles are now more commonly used for pleating, fancy decorative stitching or even some types of beadwork. They are similar to an ordinary Sharps needle but longer.

Organic Cotton Threads

All-Natural Quilting and Sewing

Colonial Organic Cotton Thread is strong, 50wt. extra-long staple 100% Egyptian cotton.

Its production uses no toxic chemicals, in accordance with the strict Global Organic Textile Standard rules.

By using Colonial Organic Cotton, you are choosing a healthier alternative for yourself, as well as contributing to a cleaner, chemical-free environment.

Presencia America

All Presencia cotton threads are extra-long staple 100% Egyptian cotton, mercerized for strength, colorfast and shrinkfast.

All Presencia metallic threads are highly shred resistant, with a polyester core for strength and 100% metal-fiber wrapping.

Colonial Persian Yarn

Colonial Persian Yarn is 100% long-staple virgin wool with extraordinary strength for no fraying or breaking during stitching. A versatile, mothproof 3-ply yarn in 249 exquisite colors perfect for heirloom-quality needlepoint, crewel, and more.

SOLD WHOLESALE ONLY

GETTING TO KNOW OUR NEEDLES

Appliqué.

Available in a great variety of sizes, lengths, and thicknesses. Some needles are even coated with high-tech materials such as Teflon to make them glide more smoothly through fabric layers.

Beading.

Very fine, long needles with long eyes for stringing beads and sewing beads on fabric.

Best Home Assortments.

General Household Needles: Betweens, Chenille, Darners, Embroidery, Sharps, & Tapestry.

Betweens.

Betweens needles are shorter, with a small rounded eye and are usually used for making fine stitches on heavy fabrics such as in tailoring, quilt making and other detailed handwork.

BIG EYE - Quilting.

This is a standard quilting needle with a big eye designed for the ease of threading. The big eye needle is an absolute favorite of our quilting supplies and is an essential tool used in the art of quilting.

Bodkin Set.

Sewing Bodkins are flat or round and they have large eyes for threading cords, tapes and elastics. This kit contains a flat tape threader and a sewing bodkin.

Chenille.

Large eye needles with sharp points for crewel and ribbon embroidery.

Compact Dial ASSORTMENT.

A handy and easy-to-use sewing needle compact. The lid rotates 360 degrees, keeping the sewing needles safe and secure when not in use. Sharps, darners, quilting and tapestry included.

Craft Needles ASSORTMENT.

A crafters delight, a hand sewing needle for every occasion. Sewing needles included in this kit are used in the traditional crafts of tapestry/cross stitch, embroidery, quilting and beading.

Curved Needles.

Curved Beading needles are ideal for use in the art of box making and restoration work.

Curved Quilting sewing needles are the quilter's choice when creating fabric boxes. These sewing needles make the application of sewing together pieces of stiffened fabric so much easier and they are kind on the finger too.

Curved Tapestry needles begin life as a straight needle and are curved during the final manufacturing process. They are extremely useful in the art of box making.

Darners.

Long needles with sharp points and long eyes for basting and mending with cotton and wool.

Doll Needles, Soft Sculpture.

Large sewing needles for use in doll making and soft sculpture projects.

Easy Threading.

Easy Threading Sewing Needles are sometimes referred to as a CALYX EYE NEEDLES. These hand sewing needles have a slotted threading eye at the top into which the thread is passed through. They are specially made and are perfect for those people who have difficulty threading ordinary sewing needles.

Embroidery.

Embroidery sewing needles are sometimes referred to as Crewel Needles. Embroidery needles are the same as a Sharp sewing needle and they have a sharp point. However, they have a long, extra large eye, which makes threading the needle so much easier when using multiple strands of stranded cotton embroidery thread.

Embroidery/Crewel.

Long eye ideal for threading stranded cotton.

Household ASSORTED & REPAIR.

Assorted packs of hand sewing needles for general everyday sewing needs. Assortment of hand sewing needles every household should have for those tasks when an ordinary sewing needle is not enough. Unique repair needles including curved and leather needles ideal for sewing into difficult and hard to reach areas.

Jeans Machine Needles.

Size 16 (100) Jeans Machine Sewing needles are specially designed for heavy duty stitching and are suitable for denim and closely woven fabrics.

Knitters.

Large eye blunt pointed needle for wool projects.

Leather.

An unusual triangulated point enable these needles to pass through tough materials. Suitable for leather, suede and soft plastics.

Long Darners.

Use long darners for picture smocking, bullion roses and ribbon work.

Milliners/Straws.

Similar to a 'sharps' needle, but longer. Used for pleating, fancy decorative stitching and some types of beadwork.

Professional Needle Collection.

The Premier Collection by John James. A complete collection of the finest english hand stitching needles.

Quilting.

Very short, fine needles with round eyes. Short length allowing quilters to stitch faster.

Raffia & Bodkin.

Use to thread ribbons, elastics and other tapes.

Regular Point Machine Needles.

Regular Point Machine sewing needles are designed for domestic regular sewing machines. It is important to use the correct size machine sewing needle and this depends upon which fabric you choose.

Sharps.

General purpose sewing needles.

Silk Ribbon Embroidery.

Superb collection of 25 sewing needles including Chenille, Tapestry, Embroidery, and Beading, Milliners, Sharps and Quilting needles, all of which are used in the art of embroidery and embellishing fabrics by using silk ribbons, organza ribbons, beads, sequins, metallic threads, silk threads and stranded cotton.

Super Stitch Machine Needle.

Excellent for jerseys and other stretch fabrics for trouble free seaming of both natural and synthetic fabrics.

Tapestry.

Large eye needles with blunt points for needlepoint, Counted cross stitch, stitching knitted or crocheted projects.

The blunt round point enables the sewing needle to pass and slip between fabrics and yarns without splitting or tearing the fibres. Use them with wool, embroidery soft cotton and stranded cotton on Single Point Canvas, Double Point Canvas, Aida and open mesh fabric.

Trapunto.

Trapunto needles are used in the very specialist art form of Trapunto Needlework, Italian Quilting and 3D stitching projects. This particular form of needlework creates images in a 3D effect using the same colour thread as the background fabric and therefore gives the effect of a sophisticated tone on tone look.

Twin Needles.

Use long darners for picture smocking, bullion roses and ribbon work.

Twin Pointed Quick Stitch.

The eye is in the centre of the needle with points at either end to allow stitching without turning the fabric.

ULTIMATE Collection.

The Premier Collection by John James. A complete collection of the finest english hand stitching needles.

Weaving Needle.

Kit containing 3 different types of needles in the weaving kit: a flat straight sewing needle and a flat cranked raffia sewing needle plus a cranked weaving needle. A cranked needle is sometimes called a turned up needle.

Yarn Darners.

Yarn Darners are very long hand sewing needles with long eyes and are ideal for spanning large holes during mending, using yarn or cotton.
