

FINESSE

Quality Quilting Thread

FILL YOUR PROJECTS WITH **COLOR.**

INTRODUCING FINESSE: YOUR NEW FAVORITE THREAD

Our quilters spoke, and The Grace Company listened. Finesse is designed to work with both longarms and domestic machines. Finesse's strength and smooth finish minimize tension issues while delivering a high quality color that won't fade over time.

STRONG

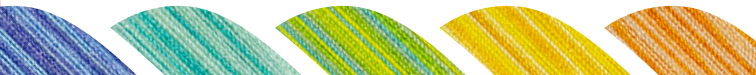

**COLOR WON'T
FADE**

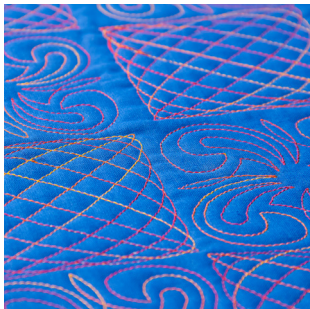

**EASY TO SET
TENSION**

LOW LINT

QUILTER-FRIENDLY

- Finesse is also designed to make setting tension easy. It is strong and won't break when stitching at a high velocity.
- Finesse's 3 ply consistent round design adds pleasing depth to your stitches.
- It has low lint, which means less residue and less time cleaning the machine.

THE PERFECT SIZE

The Finesse mini-cone is the perfect size balance between spool and cone, giving it just the right amount of yardage for one project. Now quilters are free to try several beautiful colors without buying excessive amounts of thread.

60 HAND-PICKED COLORS

Each color in the Finesse thread line was hand-chosen based on extensive research into the latest trends in design, fashion, and the quilting industry. Many of the colors were inspired by fundamental values in color theory, which we used to create harmonious relationships between hues. The result was a beautiful collection of thread colors that we hope will inspire new waves of personal expression and creativity in your next masterpieces.
